

MUHAMMAD FAHAD

Full-Stack Developer — React, Next.js, Node.js

mdfahadzulfiqar@gmail.com | +92 342 0072298 | linkedin.com/in/mr-fahad | Faisalabad, Pakistan

PROFESSIONAL SUMMARY

Full-stack developer with nearly three years building and shipping production web applications across the JavaScript ecosystem — React and Next.js on the front end, Node.js, Express and NestJS behind it, on PostgreSQL and MongoDB. Currently leading client web projects at a Faisalabad software house while building remotely for a North American team. Top Rated on Upwork, where I run an ongoing freelance practice.

Available for remote roles worldwide. Open to relocation to the UK, US or EU with visa sponsorship.

PROFESSIONAL EXPERIENCE

Senior Web Developer

Tech Solutionor, Faisalabad, Pakistan | June 2025 – Present

- Lead design and development of client web applications, from architecture through delivery.
- Review code and mentor junior developers across the team's projects.
- Own the full delivery cycle: requirements, implementation, testing and deployment.

Full Stack Engineer (Part-time)

Best Super Cleaning, Remote (North America) | July 2026 – Present

- Build and maintain the company's customer-facing web platform across the front end, API layer and database.
- Own features end to end, from specification through code review and deployment.
- Work asynchronously with a US-based team across a nine-hour time difference.

Independent Full-Stack Developer (Freelance)

Self-employed, Remote — international clients | January 2024 – Present

- Scope, build and ship web applications for international clients across e-commerce, consulting and content platforms.
- Hold Top Rated status on Upwork, sustained through client ratings and on-time delivery.

SELECTED WORK

- Grabatoz (grabatoz.ae) — Multi-region e-commerce marketplace trading across five countries, with per-market pricing and currency handling. Built catalogue, search, cart and checkout.
- Seen Alif (seenalif.com) — UAE B2B technology storefront for POS, printing, security and computing hardware. Built the catalogue, search, wishlist and account flows across English and Arabic locales.
- Ask Your Mufti (askyourmufti.com) — Multilingual religious question-and-answer platform. Built the localisation layer and the moderated review and publishing workflow.
- AUS Visa Experts (ausvisaexperts.com.au) — Site and enquiry system for an Australian immigration consultancy, feeding the firm's consultation pipeline.

TECHNICAL SKILLS
